DESCRIPTION

Code Item

IIR-001

Main Function

Induction stoves with infrared temperature sensors are very suitable for food menus that are served using a hot plate. Capable of reaching a temperature of 280 degrees Celsius in less than 1 minute, supported by an accurate infrared sensor. Equipped with an alarm that will sound when the hot plate is finished heating. Panel control uses an easy-to-use LED Display and Rotary Knob. Equipped with an automatic shutdown safety system when the temperature is not excessive or when there are no objects being heated.

Dimention

350 (W) x 530 (D) x 200 mm (H)

Power Consumption

5,2 Kw/Hr

Electricity

220 V / 50-60 Hz / 1 Phase

Power

Electricity

Features

Infrared, Knob Control
